

WILL Empower Apprenticeship Program

Backgrounder for Host Organization

More info at: www.willempower.org

- The WILL Empower Apprenticeship Program is a recruitment and on-ramp platform for women's labor leadership. This program recruits recent college graduates and / or rank-and-filers and places them in 3 to 12 month staff apprenticeships with unions and worker organizations across the nation.
- The apprentices may work in a variety of capacities, including organizing, research, communications and policy. It includes formal mentorship, both within and outside of the host organization.
- The host site [applications](#) are due April 1, 2019. The apprenticeships will begin in the Fall of 2019. There will be an orientation / training in early September. Start and end dates are flexible.

What do I need to do to express an interest in having an apprentice?

Fill out the [host organization application](#). The form asks you to consider the apprentice's role, geographic location, mentor, and duration of apprenticeship.

Is this only for unions?

No. It is open to any worker organization or economic justice organization. In addition, unions and organizations at all levels (local, regional, national) are encouraged to apply.

How long will the apprenticeship last?

The apprenticeship can last between 3 and 12 months, depending on what the host organization and the apprentice each need.

How much does hosting an apprentice cost?

The base cost is \$6300. This covers that salary for an apprentice is \$15 an hour, for a 35-hour week, for at least 12 weeks. WILL Empower does have subsidies available on a case-by-case basis. We hope that many unions and organizations will not need to tap the full subsidy. In addition, the host organization would need to decide whether it would offer any other benefits, such as health insurance. WILL Empower is open to partnering with organizations to fundraise further support for an apprenticeship.

Do you provide housing?

No, we do not provide housing.

Do you provide health care or other benefits?

No, we do not provide health care or other benefits. If possible, the apprentice would access benefits through the host organization.

How do you recruit apprentice candidates?

We advertise widely, and work through unions, worker organizations, universities and economic justice organizations to spread the word. Apprentices then fill out an application, and we interview a select few. From those interviewed, we make the best matches with available apprenticeship placements.

Does the host organization get a say in which apprentice we get?

Yes, we will work with you to make sure the candidate is a good match, including setting up an organizational interview. Often, we can offer multiple candidates to choose from.

What is required of me as the point of contact?

We would expect for you to either serve as the organizational mentor to the apprentice, or to designate someone to play that role. You will need to develop a work plan describing the apprentice's duties, tasks, and expected outcomes. You would discuss the apprentice's progress with WILL Empower.

What does the host organization gain?

The apprenticeships offer organizations the chance to bring in women with untapped talent who are at the beginnings of their careers. The host benefits from WILL Empower's comprehensive and strategic recruiting and vetting system. They get the cream of the crop, so to speak. In addition, the apprentice will receive training and mentoring through WILL Empower, including an orientation training. The apprenticeship allows an organization to test out a new potential staffer, recruit fresh talent, and bring in women with new ideas and energy. In addition, organizations benefit from WILL Empower's mentorships of the apprenticeship as well as our ongoing assessments of the apprentice's strengths and areas for improvement throughout the program.

Is this only for Washington, D.C.?

No, the apprenticeships are based across the country.
